www.carolwoods.org

Dear Prospective Resident,

Thank you for requesting information about Carol Woods, an accredited, not-for-profit continuing-care retirement community that began 46 years ago and continues to build on its national reputation for excellence. We welcome you to learn more about why people choose our community:

- **Beautiful campus:** Located on 120 wooded acres, cottages and apartments are nestled around the mile-long Harkness Circle used by residents for walking, biking and birdwatching.
- **Resident-driven model:** Residents organize and manage close to 100 committees and special interest groups including advisory committees. Four residents serve on the board of directors.
- **Exceptional health care:** We provide a comprehensive and coordinated range of health and support services that reflects the community's exceptional commitment to supporting the well-being of all residents.
- **Dementia-inclusive community:** Unlike most other retirement communities, Carol Woods is a dementia-inclusive community and doesn't have a separate memory care unit. We believe that integrating persons living with dementia is a better approach.
- **Financial stability:** Carol Woods has an A+ rating from Standard & Poor's, an actuarial base, strong reserves, and sound practices that assure financial security for the future.

Residents enjoy an active lifestyle of learning, growing, and contributing to both Carol Woods and the community at large. Residents come from different backgrounds, religions, lifestyles, and viewpoints to create an inclusive and welcoming community. Residents must be physically and cognitively independent when they join our community and have access to our exceptional higher levels of support when and if needed.

The wait time for a move to Carol Woods will vary according to your choice of accommodations. For a one-bedroom apartment, we are seeing a average wait of nine years. For homes with two bedrooms, we are experiencing a minimum wait of 13 years with most having at least a 16-year wait. We advise you to put your name on the Priority List well in advance of the time you would like to move and to have alternatives in case you don't get an offer in your timeframe. Getting on the Priority List requires a \$1,500 deposit, \$1,000 of which is refundable or put toward your entry fee.

The best way to learn more is by attending our monthly Virtual Information Session on Zoom. To sign up for a session, visit the "contact us" page at www.carolwoods.org. You can also find pictures, videos, and 3D floorplans online. After you attend a Virtual Information Session, you will receive a link to sign up for an on-campus tour to see our common areas and Health Center. **If you have questions, please contact Hailey Boone at (919) 918-2630 or hboone@carolwoods.org.**

Again, thank you for your interest in Carol Woods.

Sincerely,

Jordan Medlin
Admissions Manager
919-918-3294 jmedlin@carolwoods.org

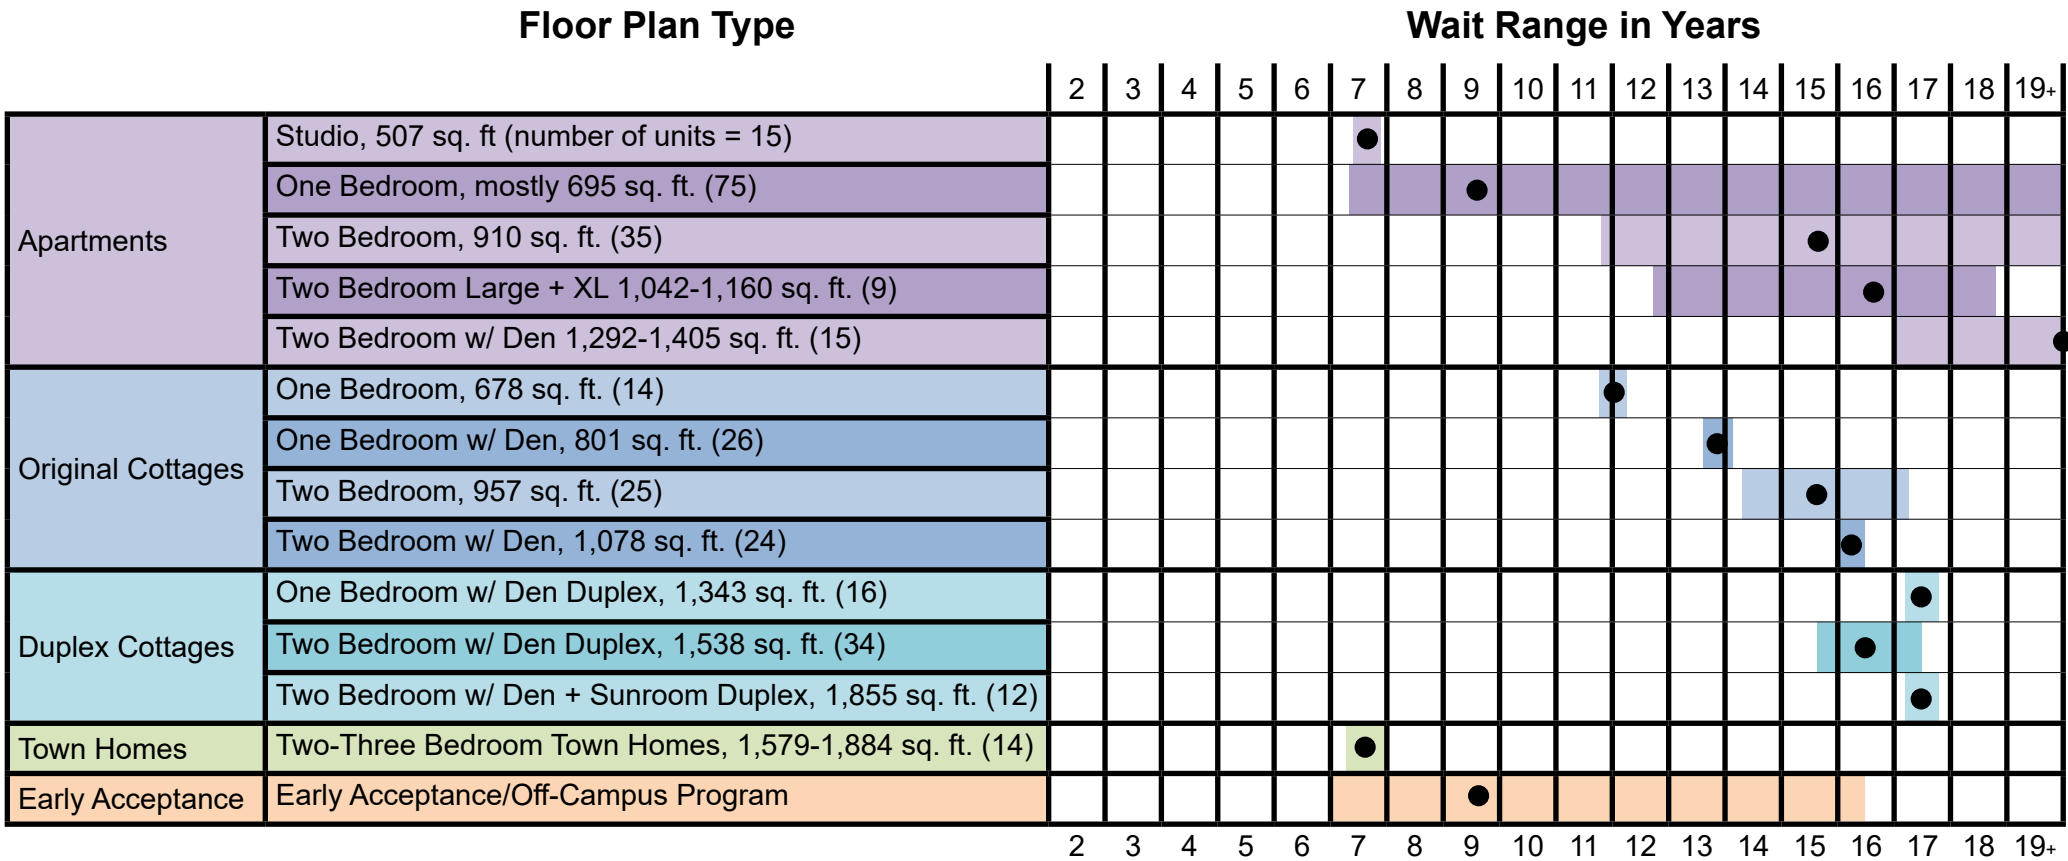

Vicki Moran
Admissions Manager
919-918-3299 vmoran@carolwoods.org

Carol Woods is an accredited, not-for-profit community.

Carol Woods - Recent Wait Times

This graph shows the wait ranges and medians that we have recently experienced (3/1/2024 - 3/1/2025).

- Shaded areas indicate the wait range for each unit type. Black dots indicate the median wait where half of the move-ins had waits above this number and half had move-ins below this number. Gray shaded areas indicate that we haven't had availability of these unit types in 2023-2024, which could increase demand. The number in parenthesis indicate how many we have of each unit type.
- Cottages might have 60-240 added square feet because of an existing sunroom or Carolina room.
- This graph shows what we have experienced recently and doesn't factor in that more people are saying that they are ready to move each year. If those people are ahead of you, they will affect your wait.
- We have 1,850 on the Priority List. Since we average 23 move-ins a year, most people on our Priority List will not be offered their desired home in their timeframe.

A lifetime of **LEARNING,** **GROWING,** and **CONTRIBUTING**

Carol Woods is a community for those who are looking for more than security, pre-planned health care, and the basic comforts of life. All of these are provided, of course, but it is just the beginning of what Carol Woods is all about. Carol Woods is for those who want to expand their horizons, preserve their individuality, and make a difference in the lives of others.

A genuine spirit of community pervades Carol Woods. There is a commitment to each other and to the pursuit of excellence. This is one reason we are consistently recognized with national, state, and local awards for best practices.

The Carol Woods campus, facilities, and services are unsurpassed in quality. But what really sets us apart is the dynamic interaction of ideas, interests, and talents.

Carol Woods is an elegant tapestry, with each individual an essential thread contributing to the strength and vibrancy of the whole.

A UNIVERSITY TOWN SETTING

Carol Woods is set on 120 acres of rolling woodlands in Chapel Hill, home of the University of North Carolina. The stimulating college-town atmosphere is a magnet for active retirees.

Chapel Hill is part of the Research Triangle, an area that includes the university cities of Durham and Raleigh, which is also the state capital. The Triangle is frequently cited in national surveys as one of the best places to live.

Life at Carol Woods is enhanced by the beauty and tranquility of a parklike campus. Walking paths wind through azalea gardens and stands of pine and hardwood trees, which attract numerous species of birds and other wildlife.

As Carol Woods grows, we take great care to protect the environment and preserve the natural beauty. The buildings at Carol Woods blend in with the surroundings. Inside, the atmosphere is warm, relaxed, and welcoming.

CHARTING THE COURSE

Residents play an essential role in the governance and operation of Carol Woods. They serve on the 21-member volunteer Board of Directors, which also includes local community leaders.

Residents are informed and involved, and an active Residents Association ensures a voice in planning and policy-making. In fact, resident committees advise the professional management staff on practically every aspect of operation, from groundskeeping to well-being to finance.

It is this dynamic collaboration of residents, staff, and board members that generates Carol Woods' enormous creative energy and directs it toward the fulfillment of our mission.

THE ART OF LIVING AND LEARNING

Many Carol Woods residents continue their lifetime of learning through programs offered by UNC and other Triangle-area universities. Some residents audit classes; many attend campus workshops and seminars. Some continue to teach.

The universities also provide many opportunities for those who appreciate the arts. The UNC and Duke cultural calendars are full of theatrical productions; symphony, chamber music, and jazz concerts; performances by modern dance and ballet companies; and exhibitions of painting and sculpture.

Carol Woods residents also can enjoy concerts and lectures without leaving campus. Our popular Wednesday evening concert series and Thursday evening programs feature presentations and performances by authors, scholars, artists, and entertainers.

In addition, there are groups of residents who meet regularly to read plays, review books, and enjoy music.

And, of course, friends are always getting together to share a casual meal, to play cards, or just to enjoy each other's company. One's circle of friends seems to continuously expand at Carol Woods.

A RICH DIVERSITY

Carol Woods owes much of its special character and appeal to the rich diversity of the resident population. From the beginning, we have attracted people from every part of the country and all walks of life.

Carol Woods residents include homemakers and professionals from myriad fields — people with backgrounds in the worlds of business, education, health care, and the arts. Fascinating people, with a wide range of talents and interests, choose to live at Carol Woods, brought together by a shared determination to enjoy life to the fullest and remain active and engaged.

The result is a community of vitality and diversity. The admissions requirements for residence at Carol Woods are nondiscriminatory with respect to race, creed, religion, gender, sexual orientation, and gender expression.

RECREATION AND LEISURE

Over the years, Carol Woods residents have helped us discover a key to staying healthy: participating in meaningful activities and striving for excellence. Residents organize recreational and social activities. They plan their own lives and participate with others in whatever pursuits they find satisfying.

Groups of residents have come together around common interests in everything from dancing and bridge to pottery and woodworking. There is shared enjoyment and shared purpose. Our

woodworkers, for example, do most of the furniture repair work at Carol Woods, and they have crafted an array of functional and decorative items for others to use and enjoy.

Gardening is popular at Carol Woods, and a vast variety of flowers bloom outside almost every door. A number of residents continue their green thumb talent by tending large beds of flowers and patches of vegetables in the community gardens.

Residents operate and staff the library and gift shop, write and edit the Carol Woods newsletter, and organize croquet tournaments.

Nearby, there are courses, courts, lanes, and lakes for those who enjoy golf, tennis, bowling, fishing, and boating. UNC and Duke provide plenty of excitement for sports fans.

CONTRIBUTING TO THE GREATER COMMUNITY

While enjoying the opportunities offered by Chapel Hill and UNC, residents and staff make enormous contributions to the community beyond Carol Woods.

They contribute thousands of hours in volunteer service annually to scores of different organizations including churches, hospitals, libraries, and human service agencies. Residents also serve as officers and board members of charities and other community organizations.

ALL THE CONVENIENCES

The main building at Carol Woods is a hub of activity. It's where residents come to do their banking, pick up their mail, or buy a gift for a friend. The community building also includes a large social lounge, library, business center, and meeting space. The auditorium can be set up for concerts, lectures, dances, or meetings.

The spacious main dining room at Carol Woods is beautifully designed and well-appointed. There also are rooms that may be reserved for private dinner parties.

An indoor heated pool and state-of-the-art fitness center are open year-round. And there's a greenhouse where you can exercise your green thumb.

A SELECTION OF RESIDENCES

The apartments and cottages at Carol Woods provide comfort and security in an environment that fits one's own tastes and lifestyle. You may choose either a central apartment or garden-style cottage.

The central apartments are designed for maximum convenience. These are located in three buildings that are connected to the Social Hall, dining room, and health center by enclosed walkways.

The cottages are clustered in neighborhoods within easy walking distance of the community commons.

Floor covering, window treatments, and major appliances are provided, and garden space is available to all residents. Residents modify, furnish, and decorate their homes to match their own personal tastes and needs.

A FOCUS ON HEALTH AND WELL-BEING

One of the keystones of Carol Woods' excellent reputation is our individualized, proactive, and holistic approach to health services. An interdisciplinary team of professionals collaborates with each resident to define a comprehensive, coordinated program of health management. Physical health is not the only objective. Each resident's full sense of well-being is supported — body, mind, and spirit.

A number of activities promote fitness and well-being, including exercise classes and water aerobics in our indoor heated pool. There is a fitness center and a lush 120-acre campus for outdoor activities. Massage and acupuncture are available on-site.

Carol Woods has long been recognized for pioneering better ways to provide health care. We were among the first to offer skilled care in a residential environment, which helps those who live in the health center to feel more at home and to stay in touch with the rest of the community.

The health center is probably very different from any you have seen. Rooms are grouped into small clusters, each with its own living and dining room. Each floor of the health center has a great room, and many of the furnishings are fine pieces donated by Carol Woods residents.

The health center also includes a full service outpatient clinic staffed by board-certified geriatricians, two geriatric nurse practitioners, a staff of nurses, as well as physical and occupational therapists.

For those who may need assistance with personal care and other daily activities, residents may choose either an assisted living apartment or one of our garden assisted living homes that offer a more communal lifestyle.

From day one, the goal of all our health and well-being services is to maximize quality of life and enhance each individual's capabilities. Rather than fitting you to a program, we adapt the program to fit you.

FINANCIAL SECURITY FOR LIFE

Our not-for-profit status means that our primary measure of success is the satisfaction and well-being of our residents. Revenue is used to maintain and improve our facilities and services and to enhance our strong financial position.

Regular actuarial studies force realistic planning, which ensures the community's long-term stability and your financial security. We are one of only a few communities in the country that hold an A rating from Standard & Poor's, which is a strong demonstration of our stable financial outlook.

Carol Woods' comprehensive program of services, coupled with a fee structure that provides maximum long-term value, is the most advantageous for the retiree who expects the utmost in comfort, convenience, peace of mind, and predictability of costs.

Carol Woods' health care plan is not only comprehensive, it is financially sensible. Because the cost of health care is spread over the entire community, the average lifetime cost per person is much lower than if every resident paid only for the services they used.

Residents prize the security of knowing that they are guaranteed lifetime high-quality health care that won't compromise their lifestyles with escalating costs.

QUALITY SERVICES FROM A DEDICATED STAFF

Our dining room serves a varied menu of delicious and healthful meals prepared and served by our talented food service staff. Our MSG-free kitchen provides heart-healthy and vegetarian options. If residents prefer, they are welcome to take out meals to dine at home.

The housekeeping staff cleans each apartment and cottage weekly; maintenance keeps your home in good repair at no additional charge.

The Carol Woods bus service makes daily trips to downtown Chapel Hill, the UNC campus, and area shopping centers. Groups of residents frequently charter the van for various activities and events.

Our security staff provides 24-hour coverage, which is especially reassuring when residents' travels take them away for days or weeks at a time.

A key to the delivery of quality services on a consistent basis is a stable staff of well-trained, dedicated people who know their work is appreciated. At Carol Woods, there is mutual respect between staff and residents, and a number of staff members have been here from the start. Several staff members have received statewide awards for doing their jobs with exceptional skill, commitment, and creativity.

A COMMITMENT TO EXCELLENCE

Carol Woods was among the first retirement communities to earn national accreditation, which is granted only to those that demonstrate excellence in governance and management, finances, health care, facilities, services, and resident life. Our innovative, industry-leading programs continue to be studied, emulated by retirement communities across the country, and recognized with national awards.

True to our tradition, we take pride in being at the leading edge of progress, and making sure we are well prepared for the future. We will continue developing innovative programs and setting standards for the industry. More important, we will continue to create and preserve an environment in which Carol Woods residents lead lives of purpose, fulfillment, and enjoyment.

We invite you to come for a visit and stay overnight in our guesthouse so you can experience firsthand our special spirit of community.

Founded with a **VISION** for the **FUTURE**

Carol Woods had an unusual beginning, but one that ensured its soundness and stability.

Unlike most retirement communities, Carol Woods was founded by people who planned to live here. It was a grassroots community effort, and almost everyone involved had a personal stake in the outcome. This personal commitment continues with today's board, staff, and every new resident.

In the early 1970s, a small group of Chapel Hill residents formed a not-for-profit corporation

with an all-local, volunteer Board of Directors to plan and develop the area's first continuing care retirement community. They envisioned, in the words of one founder, "a retirement center that would be the envy of the industry, but affordable to many people—academic people, business people, professional people."

Carol Woods opened in 1979 and, from the start, has maintained a level of excellence that surpasses even the most ambitious dreams of its founders.

EARLY ACCEPTANCE

Carol Woods' off-campus program	n/a	\$44,200	\$1,129	\$88,400	\$2,258
---------------------------------	-----	----------	---------	----------	---------

The inventory of each unit type is indicated in parentheses.

The 1,855 sq. ft. duplex cottages located in the middle loop were built with large sunrooms, and the sunroom price is included in the fees.

Some original cottages and duplex cottages have sunrooms that were added after the initial construction. These sunrooms vary in size and design. The sunroom price is determined by size and will be added to a cottage's entry and monthly fees.

Carolina rooms are room additions that have a pre-established design that includes a pitched roof, Palladian window and brick foundation.

The price of a Carolina room is already included in a cottage's entry and monthly fees.

For cottages with an existing screened porch, add \$8,000 to the entry fee.

For duplex cottages with carports in the lower and upper loops, add \$10,000 to the entry fee. (Middle loop carports are included in price.)

For duplex cottages with extra outdoor storage, add \$1,000 to the entry fee. For cottages with a gas fireplace, add \$4,000 to the entry fee.

For ground floor apartments with decks, add \$4,000 to the entry fee.

info@carolwoods.org • www.carolwoods.org

Fees for Higher Levels of Support

Effective Jan. 1, 2025

When higher levels of support are needed, residents pay a base monthly service fee plus a per diem:

	<u>First Resident</u>	<u>Second Resident*</u>
Base Monthly Service Fee	\$2,657	\$1,481
Per Diem	\$102/day Assisted Living \$122/day Assisted Nursing \$132/day Skilled Nursing	
Total monthly costs:	\$5,819 Assisted Living \$6,439 Assisted Nursing \$6,749 Skilled Nursing	\$4,643 Assisted Living \$5,263 Assisted Nursing \$5,573 Skilled Nursing

* "Second Resident" means a "First Resident" is either paying the single occupancy monthly fee in Independent Living or is paying the First Resident base monthly fee in higher levels of support.

Credit Days

Each year, residents earn credit for 15 "free days" (no per diems) that can be used in Assisted Living, Assisted Nursing or Skilled Nursing. Credit days accumulate annually, with no limit on accumulation. When a credit day is used, it reduces the prevailing per diem for that day to \$0, but it does not affect the base monthly fee.

Per Diems

Per diem rates are charged in addition to a base monthly fee. Per diem charges cover additional personal care and assistance, all meals, medical transportation and enrichment opportunities. In Assisted Nursing and Skilled Nursing, per diem charges also include personal supplies, incontinence supplies, non-prescription medications and oxygen. The \$102 Assisted Living per diem reflects the most common room size in Assisted Living.

Temporary Stays in Higher Levels of Support

When residents temporarily need higher levels of support, they continue to pay their Independent Living monthly fee, plus the per diem fee for the days they need added care. They may use their credit days to make the per diem \$0.

Medicare Certification

Carol Woods is Medicare-certified, enabling residents to use their Medicare benefits, if appropriate, while living in Skilled Nursing. This reduces the overall cost to the resident and helps ensure quality of care.

Long-Term-Care Insurance

Long-term-care insurance is not required, but it can help cover costs for higher levels of support.

- Resident greenhouse
- Resident flower gardening around homes
- Designated vegetable, flower & herb gardening areas
- Private Duty Gardening available at an hourly rate

Carol Woods' Statement of Mission

Mission

Carol Woods shall be a charitable, not-for-profit corporation meeting the needs of older adults for housing, health, well-being, and protection of financial security.

The mission of Carol Woods shall be to provide a safe, healthful, and secure environment for persons throughout their later years, as well as to engage in cooperative research, development, and education in areas encompassed by the mission. High quality residential living and health services shall be provided according to individual needs. Residents' ongoing needs to maintain and promote health and well-being shall be supported through the provision of appropriate resources. Carol Woods shall encourage diversity, residents' leadership, participation in and service to Carol Woods and the larger community. Carol Woods shall also foster a high quality work experience for staff and facilitate staff development that embodies the values of the organization.

Intent

To that end, Carol Woods shall:

- a) Obtain, manage, and apply assets and income exclusively for the benefit of older adults, subject to the restrictions and limitations as set forth in its Articles of Incorporation;
- b) Supply for older adults residential facilities and programs that are specifically designed and staffed to support health, well-being and autonomy
- c) Provide, by itself or through continuing arrangements with other organizations, facilities, personnel, and/or services designed to enhance the physical and emotional well-being of older adults;
- d) Continue to maintain in residence any persons who become unable to pay their regular charges due to circumstances beyond their control in accordance with the provisions of the Residence and Service Agreements;
- e) Provide high quality services at the lowest feasible costs; maintain resources of Carol Woods, taking into consideration the payment of indebtedness, maintenance of reserves adequate to ensure the life care of each resident, and to provide physical expansion commensurate with the corporate needs;
- f) Engage in cooperative research, development, and education in areas encompassed by this mission;
- g) Foster a high quality work experience for staff and provide programs that support staff's professional and personal growth as they embody the values and fulfill the mission of the organization;
- h) Engage in providing community leadership and services appropriate to our mission.

The Carol Woods Philosophy

Carol Woods values individual and community well-being, defined as a sense of life satisfaction, meaning and purpose. Success is measured by the quality of life achieved by residents. Personal autonomy and dignity are honored in a safe and secure community conscious of its generous but limited resources.

Carol Woods' approach to well-being, which includes health care, is holistic, proactive and collaborative, integrating a broad array of traditional and emerging modalities and interventions tailored to the unique needs of each person. Each person's life experiences, capabilities and goals are respected and honored. Carol Woods is restraint-free and supports individual choices in end-of-life decisions.

The partnership between staff and residents is fundamental to successful well-being. Mutual respect between residents and staff fosters a natural sense of cooperation and caring. Staff supports residents in making decisions about individual services, healthcare and transitions. Carol Woods encourages open communication and partnership in planning, implementing, and evaluating community initiatives. Open and honest interaction builds relationships of appreciation and trust among residents, families, staff, administration, and the board of directors.

Staff members are supported personally and professionally through high quality education and training to gain a thorough understanding of the aging process and the latest developments on resident focused services to support the community's philosophy.

Carol Woods' commitment to these values builds a strong community that is responsive to changes and extends beyond its own members. Research, education and community service further quality of life for elders in the wider world.

Revised by the Board of Directors - September 27, 2011
